

Name: _____

Room/Location: _____

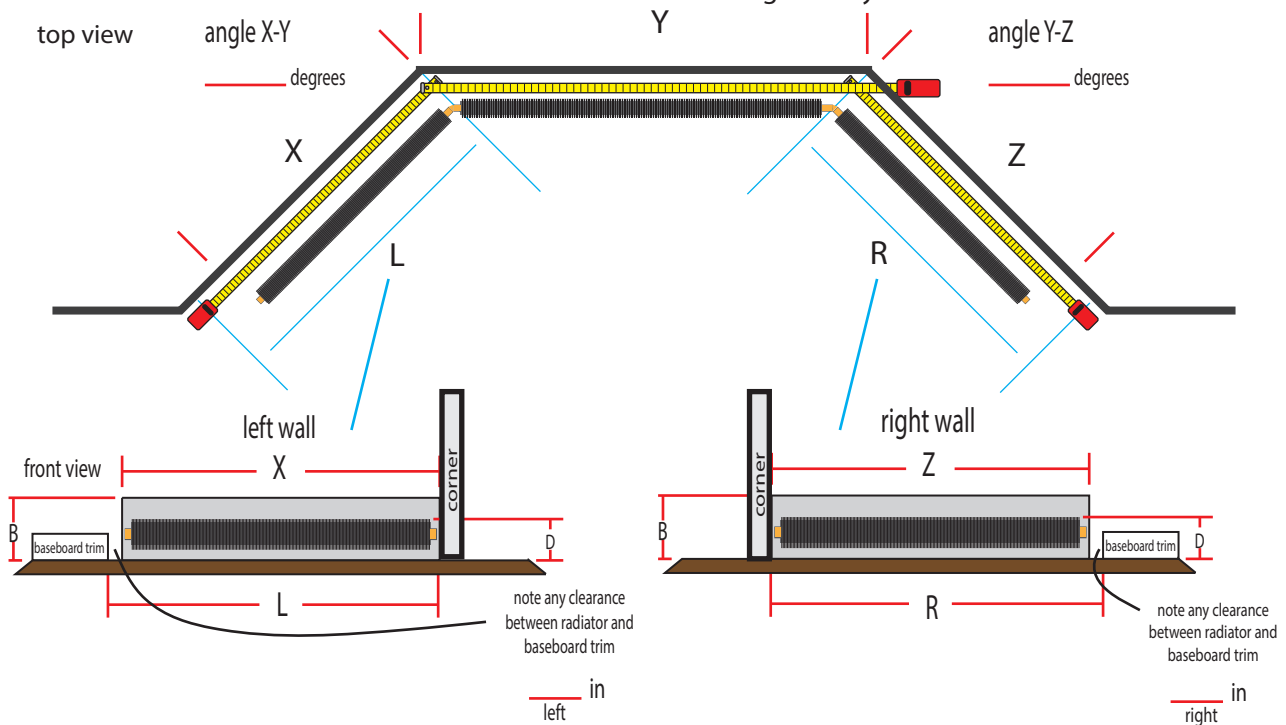

___ of ___

The Dozer Company

Measurement Guide Three-Sided Bay Window

If it applies, remove cover and existing end caps for measurements. Leave backplate in place.
Measurements are referenced from facing directly at the radiator.

X measurement along wall from inside corner to farthest left side of radiator _____ in

Y measurement along wall from inside corner to inside corner _____ in

Z measurement along wall from inside corner to farthest right side of radiator _____ in

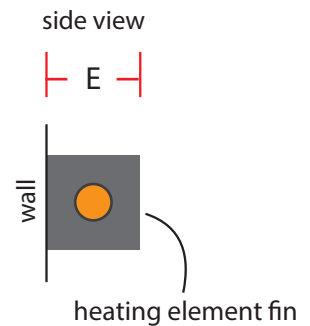

B measurement from floor to top of existing backplate _____ in
enter highest measurement from all walls
if no existing backplate, skip

D measurement from floor to top of heating element fin _____ in

E measurement from wall to front of heating element fin _____ in
measure at multiple points and enter highest value

L measurement along left wall from baseboard trim to corner _____ in

R measurement along right wall from baseboard trim to corner _____ in

In some situations you may have to cut away a section of the baseboard trim in order to install the covers flush to the wall. In order to prevent any gaps in the transition from the covers to the baseboard trim, please try to provide as many measurements as possible.
